Re: Thermometer Standardization and Digital Timer QC

We are excited to announce our thermometer standardization and digital timer quality control services. Both services are offered with an expedited average three day turn-around-time (Mon-Fri) from receipt. We provide a performance certificate along with the expiration of the service with return of your equipment.

For pricing and other details, please contact: 903-363-0469 or hospitalrelations@carterbloodcare.org.

At Carter BloodCare, we strive to offer quality services to our clients that offer cost-savings, reduce the strain on internal resources, yield laboratory efficiencies, or improve customer service.

We appreciate the opportunity to work with your team in offering these additional services.
