Giving Life From Loss: The Organ Procurement Process

Gregory Asmus, HDS-C, CPTC

June, 2018

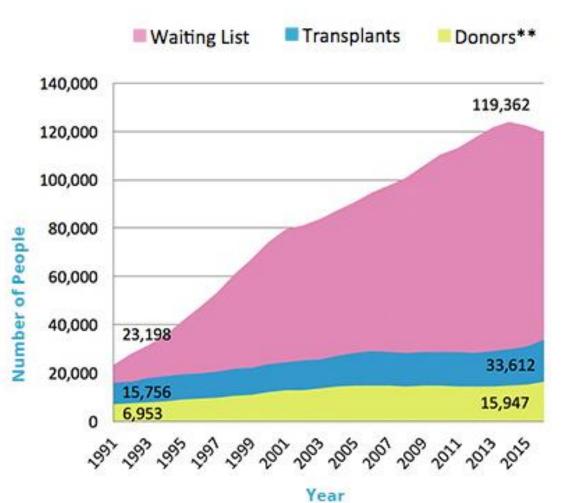

Objectives

- What is an OPO, and why is that structure important
- How do OPO's interface with hospitals and transplant centers
- What is the path of an organ, from donation to transplant

The Need

Every ten minutes, someone is added to the national transplant waiting list

On average, 20 people die each day while waiting for a transplant

Why is There a Shortage?

- Must be admitted to a hospital
- Must have a life ending injury
- Must be maintained on the ventilator
- Must have healthy organs
- People say no to donation

What can be Recovered

Bixing Dearb Deonors

Heart

-Liver-

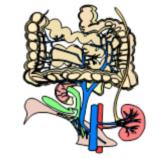

Kidneys

Pancreas

Small Intestine

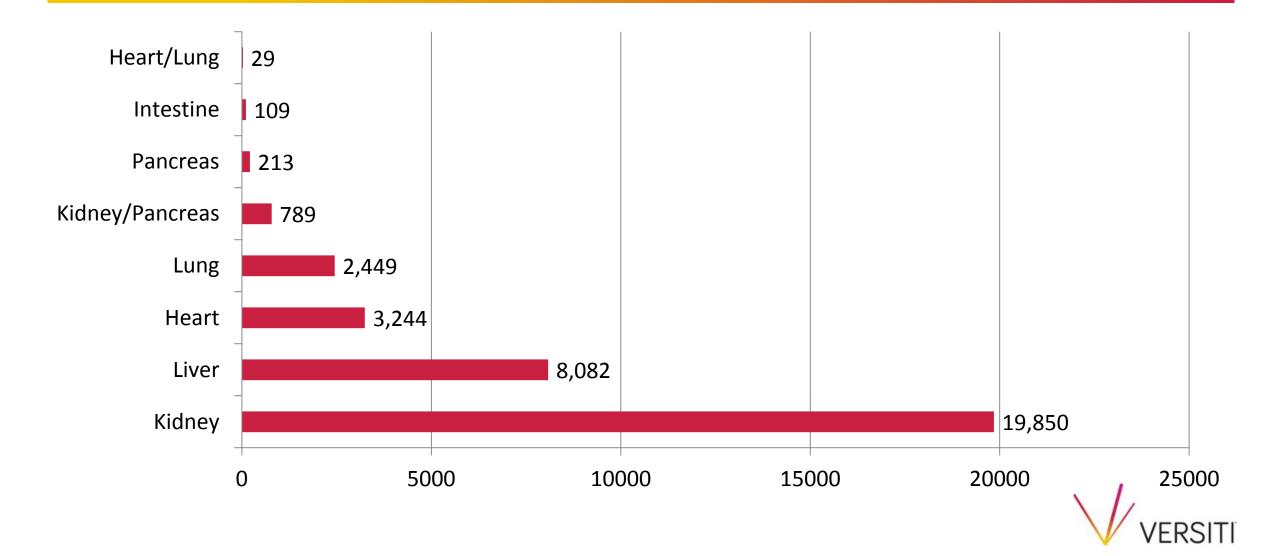

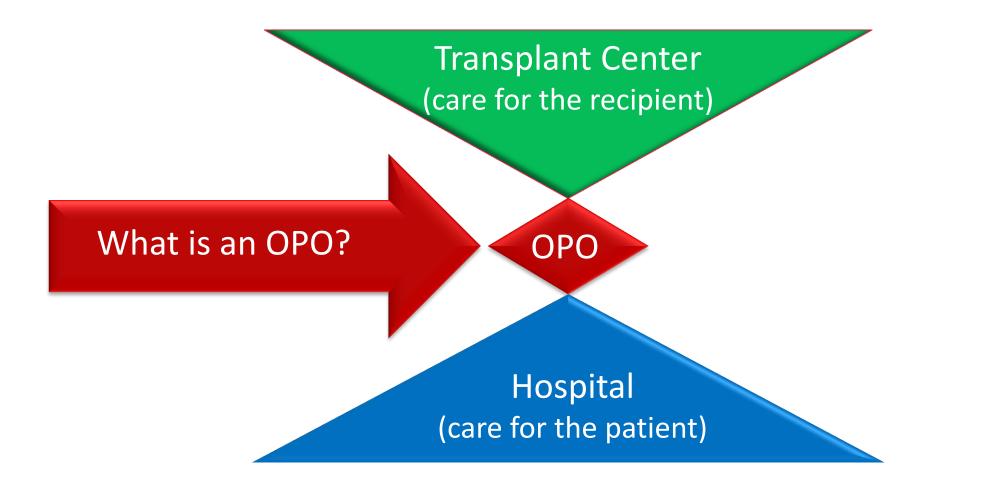

Organs Transplanted 2017

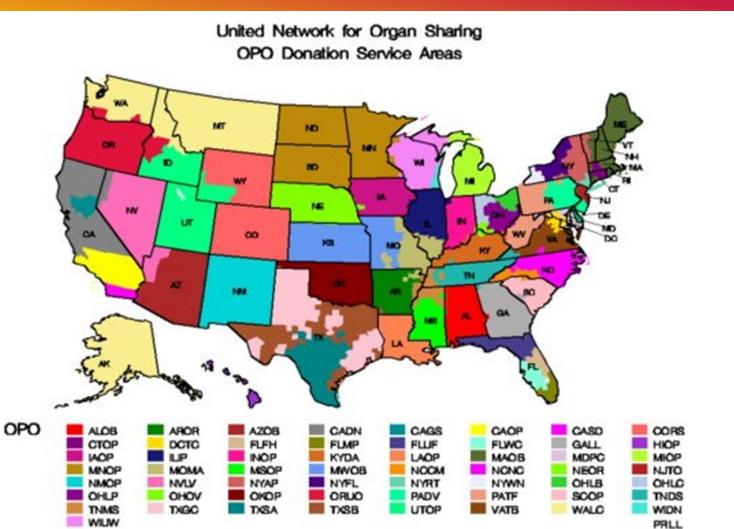

Collaboration of Care

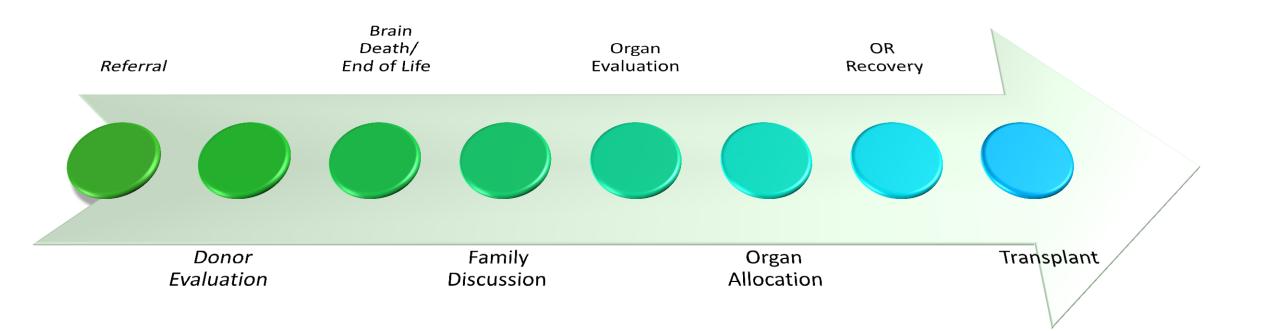

Organ Procurement Organizations

- 58 OPO
- Non-Profit
- Non-Competitive

The Steps to Donation

Hospital Referral

To ensure that every family is provided the option of donation, JCAHO & CMS require timely referrals from the hospital :

On every death and every imminent death
Clinical Triggers (vented patients only)

What is Brain Death?

Coma or Unresponsiveness

• No response to pain in all extremities.

Absence of brain stem reflexes

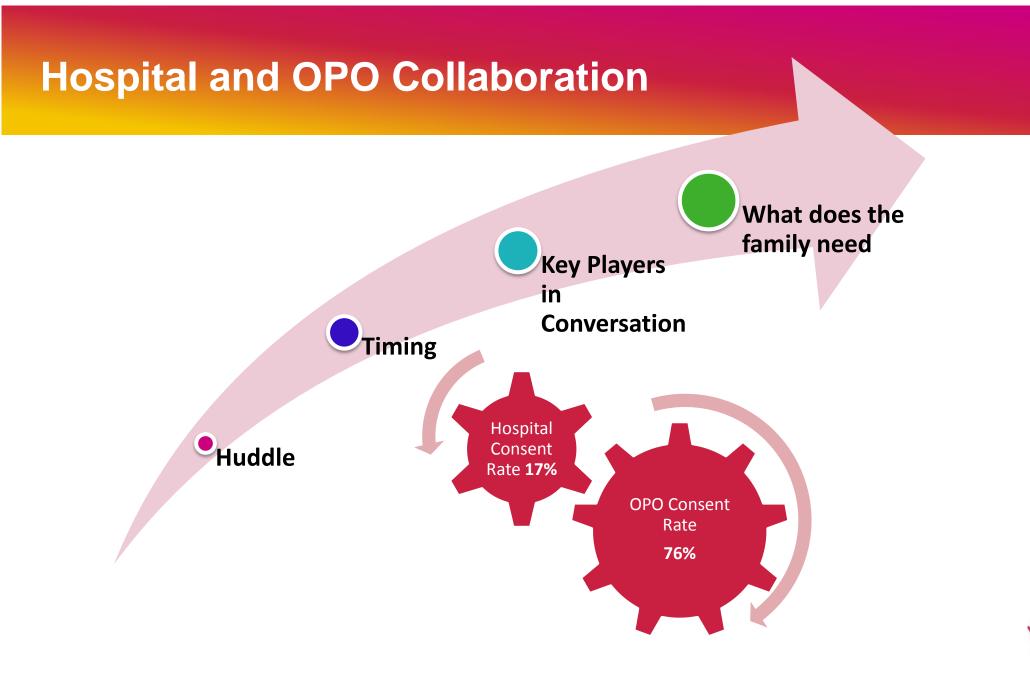

• Pupils, ocular (dolls eyes, cold calorics), corneal, pharyngeal (gag, cough)

Apnea

Confirmatory Imaging

Patient's time of death is the time of the clinical exam

First Person Consent

- Did the patient indicate his or her wishes regarding donation.
- No longer <u>asking</u> a family about donation, but <u>helping</u> them honor their loved ones wishes.
- Where is First Person Consent documented?
 - Drivers License
 - Advanced Directive / HPOA / Will
 - Statewide Registry
 - National Registry

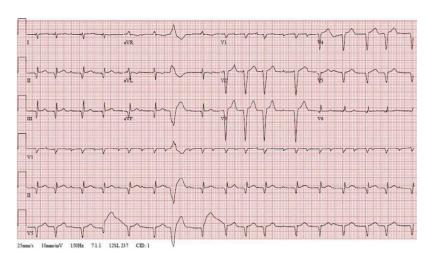

Donor Evaluation and Management

Starts with a medical-social history interview:

Identify high risk behaviors

- Thorough physical assessment:
 - Identify evidence of viral or bacterial infections
 - Assess for IVDA, STDs, tattoos, piercings

Critical care assessment of all systems

Organ Allocation

Who Receives the Organs

52 year old female ABO: A Height: 5'5" Weight: 135 lbs

PMH: Nonsmoker, exercises 3 times/week, EF=55%

Once Organs are Accepted

- Setting OR time after all organs accepted
- Transplant centers contact their recipients
- Arranging out of state transportation
- All centers need to be at the recovery and ready to begin at the same time

The Legacy
