Re: Apheresis Platelet Inventory

Decreased collections in the earlier part of the week have regrettably resulted in limited apheresis platelet availability. Additionally, importing opportunities are not available.

CUSTOMER ACTION:

We request your cooperation by reviewing on-hand platelet inventory and platelet requests. Additionally, we may ask your facility to release platelets maintained on site to ensure imminent transfusion needs elsewhere can be met. Please assist our Distribution department as they review each order on a case-by-case basis.

We expect recovery of the inventory to happen within the next 18-24 hours.
