Re: Autologous Donation Attempt Notification

Currently our Special Donations department provides notification to your facility and the physician of record, if an autologous or directed donor is unable to successfully donate their autologous or directed unit. The notification form has been updated to include directed in the subject line effective October 30, 2015.

Please replace the included form, SDF801.01C, in your Customer Service Manual, Section 8.0, Special Donations. Complete updates to the section will be sent at a future date.
