Re: Technical Director

We are excited to welcome Lavetta Kennedy as the new Technical Director at Carter BloodCare.

Lavetta is responsible for the coordination and management of the departments of Distribution, Component Production, Testing and Labeling and Hematology. Lavetta has a wealth of industry experience where she has worked in various positions in the clinical laboratory. These include managing Hematology, Transfusion Services and Information Services departments. She has also been an adjunct faculty member with Tarleton State University Medical Laboratory Science program and taught students from the Texas Tech Health Sciences Center and University of Texas Medical Branch. As Manager of Information Services QA at Carter BloodCare, she was an instrumental team member for FDA 510(k) submission of modifications to the Blood Bank Information System software. Lavetta is a graduate of Midwestern State University and completed the SBB program with the University of Texas Medical Branch. She is ASCP accredited as an MLT, MT, and SBB.

Lavetta can be reached at the following:
