

**To:** Carter BloodCare Customers  
**From:** Hospital Relations  
**Date:** June 4, 2020  
**Re:** Need for COVID-19 Convalescent Plasma Donors

Carter BloodCare in conjunction with you has made COVID-19 convalescent plasma available to help critically ill patients in our community. Orders for convalescent plasma have remained steady and now we are seeing an increase in the quantity and frequency of requests. In order to prevent delays in filling patient orders, we are asking you to refer recovered COVID-19 patients you may have treated at your healthcare facility to donate convalescent plasma with Carter BloodCare.

You will find attached to this communication an informational piece to be shared with recovered COVID-19 patients interested in donating their plasma.

Thank you for your dedication and efforts to help meet patient needs in our community. We cannot continue to be effective without your assistance.
