Re: New Convalescent Plasma Product Code

Carter BloodCare has imported COVID-19 convalescent plasma (CCP) units to support the increase in community usage. These units will have a new product code of E9740.

E9740 Apheresis CONVALESCENT PLASMA|NaCitrate/XX/<=-18C|COVID-19

The associated Thawed code is E9782.

E9782 Thawed Apheresis CONVALESCENT PLASMA|NS/XX/refg|COVID-19.

Impact to Client

- Please have these codes added to your blood bank system.
- Continue to refer recovered COVID-19 patients to carterbloodcare.org to consider donating convalescent plasma.

Thank you for your dedication and efforts to help meet patient needs in our community.
