**Re:** Downtime for Final Product Labeling

In order to correct a labeling issue, Carter BloodCare must suspend all product labeling during the hours of 1530-1615 on Monday, January 18<sup>th</sup>. This unforeseen downtime means that we will not be able to ship any products that must be manipulated and relabeled, such as irradiation or aliquotting.

The order will be processed; however, the blood products will not be shipped until labeling has resumed.

We apologize for the inconvenience, and appreciate your patience.
