Re: Cold Stored Platelets Implementation – Q&A Zoom sessions

Background

We are hopeful that you are making progress on your preparation to accept cold stored platelets (CSP). We are still on target to begin distribution of these platelets in January of 2022. We want to make sure any questions you have regarding the program or product are answered prior to the go-live date. As a result, we are offering 30 minute Zoom sessions over the next several weeks to address your questions and concerns.
