Re: Irradiator Maintenance – **December 13, 2021**

On Monday, December 13, 2021, the irradiator at the North Texas location will be unavailable for a brief time period due to scheduled annual maintenance. The annual maintenance is expected to take approximately two hours and should begin around 1200.

Impact to Clients:

- Please plan accordingly, and submit planned irradiated orders prior to 1000 on December 13, 2021.
- Irradiation for specialty products, such as pediatric packs, will be filled following the maintenance.
